ALL-NEW L200

MITSUBISHI MOTORS
Drive your Ambition

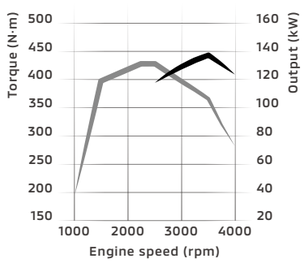
POWER
FOR ADVENTURE

Experience the next level of toughness with the all-new L200 Series 7.
Its advanced engineering and ultra-tough features redefine
the reliability and ruggedness of pickups.
Get ready for a new adventure and lifestyle with the L200.

Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

POWERFUL, CONFIDENT AND OUT THERE

2.4L
TURBO DIESEL ENGINE



New 2.4L Turbo Diesel Engine

Experience powerful acceleration and responsive performance with 150kW power and 470N·m torque.

Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

DISCOVER ADVENTURE ON
ANY ROAD

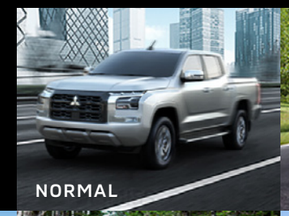
Go anywhere with best-in-class off-road performance, honed through rigorous testing and rallies in harsh conditions all around the world.

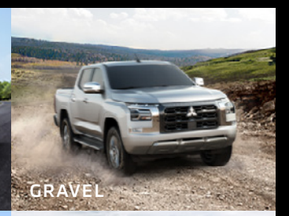
Super Select 4WD-II

Mitsubishi Motors' one and only Super Select 4WD-II system provides exceptional all-terrain performance with its four selectable modes, including 4H (full-time 4WD) that delivers great stability even on wet surfaces, and outstanding cornering performance even on dry pavement.

C/D LOCK	**2H** 2WD
C/D LOCK	**4H** Full-time 4WD
C/D LOCK	**4HLc** Centre Diff Locked 4WD
4L C/D LOCK	**4LLc** Low Gear Centre Diff Locked 4WD

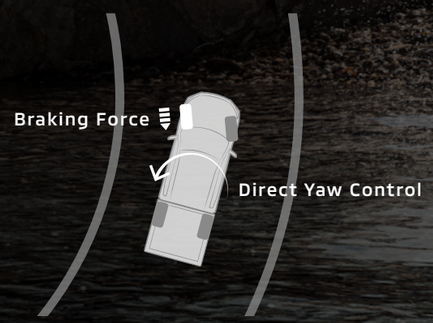
7 DRIVE MODE





Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

TOTAL CONFIDENCE
FROM TOTAL CONTROL

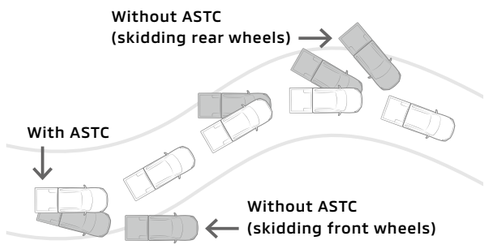


Active Yaw Control [AYC]

The AYC system helps you precisely handle slippery roads with gravel and snow, turning the L200 just as you want – an exciting driving experience for those who enjoy sporty or off-road driving.

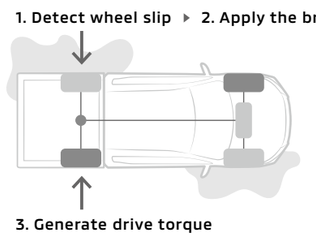
Active Stability and Traction Control [ASTC]

ASTC applies brake force whilst cornering to maintain vehicle stability and optimise traction to prevent torque loss. The system adjusts engine output and applies brake force to spinning wheels as needed.



Active Limited Slip Differential (Brake Control Type)

Helps prevent wheel spin on slippery roads by applying brake force to spinning wheels, ensuring better control and road grip.



Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

FREEDOM TO EXPLORE

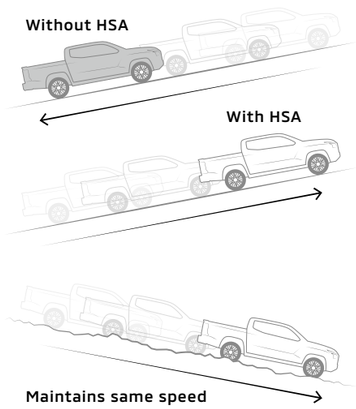
THE NEXT FRONTIER

Hill Start Assist [HSA]

HSA helps prevent rolling backward on steep slopes by maintaining braking force for up to two seconds after the brake is released. This helps ensure a safe start until the accelerator is applied.

Hill Descent Control [HDC]

HDC applies brakes and maintains speed when travelling downhill, for safer steering without manual brake application. Activates at 2-12 MPH.



Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

BUILT TO

GO ANYWHERE

New Chassis Frame

The chassis frame is built with high-tensile materials to withstand tough terrain and ensure reliable performance in any condition. It's the foundation of outstanding driving performance and ride comfort on any terrain.

Completely Redesigned Suspension System

The completely redesigned front and rear suspension systems enhance driving performance and comfort by providing superior handling on various road types.

Front suspension

Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

EMPOWERS

EVERY JOURNEY

The interior is designed for comfort during long trips, with advanced technology and a thoughtfully crafted living space that empowers you to enjoy your ride, no matter where your journey takes you.

9-inch Infotainment System

Enjoy a stress-free and enjoyable time in the vehicle with the intuitive and convenient 9-inch infotainment system that comes with smartphone connectivity and an easy-to-see display.

Combination Meter

The new 7-inch multi-information display puts all the necessary information in front of you, allowing you to easily understand the vehicle's status at a glance.

Works with Apple CarPlay

MODERN INTERIOR
FOR PROFESSIONALS

User-Friendly Components

The interior is designed to enhance your driving experience with user-friendly components that are intuitive to use, with every detail crafted with your comfort and convenience in mind.

Easy-to-Grip and Comfortable Steering Wheel

Glove-Friendly and Intuitive Air Conditioning Switches

Soft-to-Touch and 3D-Shaped Intuitive Door Handles

Convenient Tech and Storage Solutions

Make your drive convenient and enjoyable with an interior equipped with tech and storage solutions. Stay organised with ample storage space for all your items.

Smartphone Wireless Charger

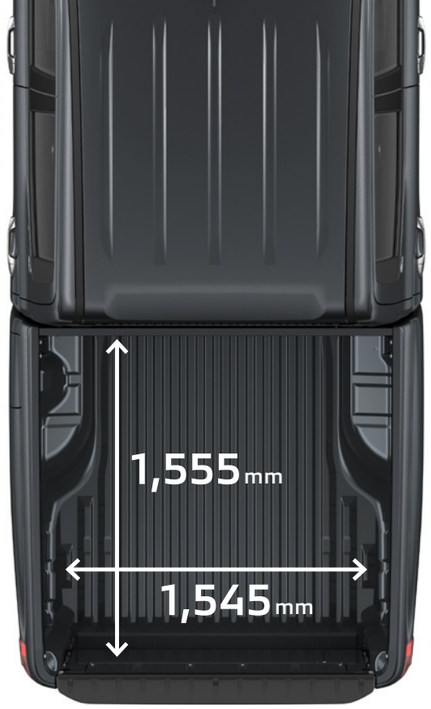
Rear USB Ports (A&C Type)

Upper Glove Box

Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

THE ULTIMATE WORKHORSE

THAT GETS THE JOB DONE



Big and Practical Cargo Space

Easily carry all your essentials, including a Euro pallet, with the versatile cargo bed. It's designed to handle everything you need, and more.

Practical Features

Wide Side Step

Designed to provide slip-resistant footing for safe and easy entry and exit from the vehicle, even in wet or slippery conditions.

Rear Bumper Corner Shape*

The rear bumper corner allows for more foot space when the tailgate is open, and it has the largest step area in its segment.

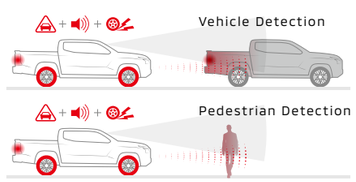
*Barbarian only

Note: Some equipment may vary by market. Please consult your local Mitsubishi Motors dealer for details.

PEACE OF MIND
WITH ADVANCED SAFETY FEATURES

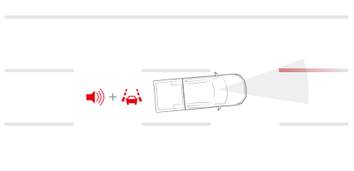
Mitsubishi Motors Safety Sensing [MMSS]

**Mitsubishi Motors offers advanced safety features through MMSS,
giving our customers peace of mind during every adventure and ensuring a safe return home.**



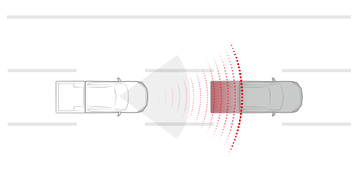
Forward Collision Mitigation system [FCM]

FCM can help detect vehicles and pedestrians and alert the driver with audio and visual warnings, as well as apply the brakes to avoid or reduce potential collisions.



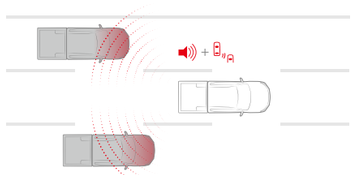
Lane Departure Warning [LDW]

LDW warns the driver with visual and audible alerts when the vehicle unintentionally crosses lane markings at speeds over 40mph, using a windshield-mounted camera.



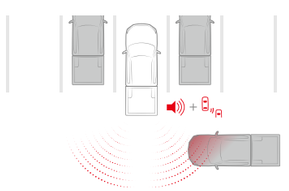
Adaptive Cruise Control [ACC]

ACC uses advanced radar and camera technology to judge the distance to the vehicle ahead and automatically adjusts the vehicle's speed to maintain the set driving distance.



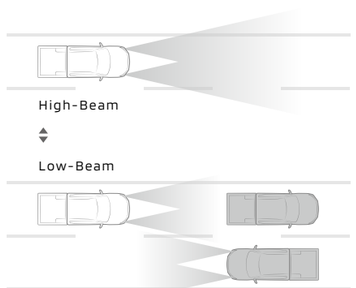
Blind Spot Warning [BSW] with Lane Change Assist [LCA]

Rear bumper radar sensors detect vehicles in blind spots on both sides. If a vehicle is detected whilst the turn signal is on, an indicator blinks in the corresponding side mirror and a buzzer sounds.



Rear Cross Traffic Alert [RCTA]

When reversing, if radar sensors detect a moving vehicle, the system warns through visual, audible, and side mirror alerts, helping to enhance safety and prevent potential collisions.



Automatic High-Beam [AHB]

Automatically switches headlights between low and high beam based on the presence of a vehicle ahead for safer and more comfortable night-time driving.

Note: The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Drivers are fully responsible for their own safe driving. Please drive safely and do not rely solely on these systems whilst driving. Some equipment may vary by market. Please consult your local MITSUBISHI MOTORS dealer for details.

DOUBLE CAB
